

STEM ALLIANCE

LARCHMONT
MAMARONECK

The STEM Alliance of Larchmont-Mamaroneck
imagine * inspire * innovate

Three things you'll want to do this month:

(Trust us - you'll be glad you did!)

1. Read this book.

As you leave for vacation or prepare for the start of another school year, remember to pick up a copy of Edward Frenkel's *Love and Math*.

The STEM Alliance's first **STEAMREAD** book group meeting is **Wednesday, September 17th at 7:30pm** and we want to see you there! [The Voracious Reader](#) is our exclusive partner and host for the series. Refreshments will be offered for purchase as well as copies of our **STEAMREAD** books in both digital and paper format. Skim the book or read it cover-to-cover; come as an expert or join in as a novice. Learning is lifelong.

Meetings start in September at [The Voracious Reader!](#)
1997 Palmer Avenue, Larchmont NY 914-630-4581

2. Go to this exhibit.

Hommocks students Jonas Varela (left), Christina McGuinness (center) and Vicky McEvoy (right),

Hommocks Co-Op Camp, Westchester Children's Museum and Maker Corps present an exhibition of work from Co-Op Camp's Summer Makers Space!

The installation, *Our Community: Engineering Art*, represents individual and collaborative art work from over 70 students, unique STEAM projects - STEM with an "A" for ART! They combine cardboard engineering with electrical components to recreate structures from our community as well as whimsical locations from the minds of the students. Two MHS grads, **Mimi Zimmer '14** and **Joey Kaplan '12**, worked as Maker Corps members under Central School Art Teacher **Michelle Burton's** supervision to expand STEAM programming at the camp. The [Maker Education Initiative](#) promotes integrated and creative technology-oriented work that encourages students to learn through hands-on projects. The collaboration between the camp and the museum, says Zimmer, serves as a "bridge between our students and the larger community." [Westchester Children's Museum](#) is also running two additional hands-on *Let's Build* exhibits in the same gallery: *Keva Planks* and *Roller Coaster Fun*. Read more in the [Mamaroneck Daily Voice](#).

Our Community: Engineering Art

Westchester Children's Museum

Rye Playland Boardwalk, North Bath House

Hours: 10am to 3pm Tuesday - Friday, Noon to 3pm Saturday & Sunday

Admission is free. Parking and admission to Rye Playland & Beach is fee-based.

Visit the exhibit with your children now through Labor Day & encourage them to celebrate making!

3. Send us your snapshots.

Send us photos of anything and everything you and your loved ones have made this summer and we'll put them in our Makers Gallery!

Let's celebrate the builder, the artist, the engineer, the creator in all of us! The Maker Movement challenges us to move beyond consuming things to actually making things. Help us create a gallery of photos that illustrates the Do-It-Yourself nature of our community! ***This is open to all ages, including adults.***

Show us your Maker skills, from a paper airplane to a ceramic zebra and everything in between!
