

SUPPORT THE HOMMOCKS ROBOTICS TEAM

Creating The Experts Of The Future

At the Hommocks Roaring Robots we are working on helping students reach their full potential through the FIRST Lego League Competitions. They can learn skills that they can use in many careers such as: researching, communication, and coding. When you invest, you are investing in the future.

What is FIRST Lego League?

FIRST (For Inspiration and Recognition of Science & Technology) is a non-profit organization which holds robotics competitions for different age levels. FIRST Lego League (ages 9-14) consists of three parts:

- The Robot Games
- The Innovative Project
- Core Values Presentation

Who We Are:

Our team consists of students in grades 6-8 at the Hommocks Middle School. We are creative, we are builders, we are programmers, we are designers, we are innovators. At the Hommocks Roaring Robots we work hard to make sure every member of the team is included. We also follow the FLL core values guidelines and always compete with a smile on our faces.

Support our team!

Your financial support allows us to:

- Buy team jerseys and other team swag
- Upgrade and replace essential equipment
- Buy a set of laptop

Team Sponsor: \$250 or more

Team Booster: Any level below \$250
